French Restaurant webpage - Project Fulfillment

			Timeline status	New skills learned	Mistakes, difficulties and conclusions
1	Best practice	View Examples of other French Restaurants webpages	On time		
2	Draft	Create draft web page layout	On time		
		2.1 learn how to use wirefames	On time	Wireframes	
		2.2 create layout with wireframes	On time	Wireframes	
4	Header	Make header in HTML and CSS	On time		
5	Home page	Make the main page with HTML, CSS and JS	On time		
		5.1 write HTML and CSS code	On time		Difficulties with CSS layout, using Grid may be more efficient
		5.2 write JS code for slider	On time	JS display method	
		5.3 test page in diferent browsers	On time		
6	About Us page	Make the About page with video	On time		
		6.1 write HTML and CSS code	On time		
		6.2 insert video from Youtube	On time	HTML - iframes	
7	Services page	Make the Services page	On time		
		7.1 write HTML and CSS, including buttons	On time		
8	Gallery page	Make Gallery page with pop-ups	On time		
		8.1 write HTML and CSS code for Gallery page	On time		
		8.2 write Javascript code for gallery	On time	JS - target event property	
		8.3 test page in diferent browsers	On time		
9	Contacts page	Make the Contacts page	On time		
		9.1 write HTML and CSS code	On time		
		9.3 create contact form	On time		
10	Git	Project structure check-up and GIT	On time		
		10.1 Revision of the project	On time		
		10.2 Git repository and upload of files to github	On time		GIT should be used from the very beginning!!
11	Documentation	Documentation, preparation for submit	On time
